WHO ARE WE?

Tech International Marine Services (TIMS) is a well-established commercial diving company. We offer a comprehensive variety of marine diving services efficiently, cost effectively and to the industry's highest standards.

Founded in 1988 by Guinness World Record Holder, Sameer Al Awam, who held the title for the longest underwater swimming distance in scuba gear in 24 hours in 1985, we were born from a place of passion, determination, and expertise.

In our 30+ years of existence we have amassed over 110 years of combined diving experience within our team of experts. Our experience coupled with our dedication to meeting the customers' needs has helped forge trusting relationships with the likes of Qatar Gas, Qatar Fertilizer Company (QAFCO) and Qatar Steel.

To assure exemplary results with every project both on and offshore, our employees are trained to the highest level. Our diving personnel are all Health and Safety Executive (HSE) and International Marine Contractors Association (IMCA) certified. Our Nondestructive testing (NDT) inspectors are all certified by Lloyd's, American Society for Nondestructive testing (ASNT) and Certification Scheme for Weldment Inspection Personnel (CSWIP).

We also hold ABS, Lloyd's and DNV certifications for in water surveys of ships and mobile offshore units.

We are also the proud sister company of Pearl Divers WLL, one of the first recreational diving centers in the State of Qatar. It is a PADI Five Star Instructor Development Centre (IDC) which trains and educates upcoming recreational divers, as well as diving instructors of the future.

POLICY STATEMENT

Tech International Marine Services (TIMS) is one of the longest-established firms in Qatar specifically developed to cater to the unique needs of diving operations. We aim to be the only stop necessary for all commercial diving needs. The Integrated Management system (IMS) we've implemented is based on the latest requirements of ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 and includes the following activities:

- Specialised Commercial Diving Services and In Water Surveys
- Sale of Diving Equipment and other related recreational equipment

We are committed to continually improving and fine tuning our practices to achieve the optimum performance from our employees thus ensuring the best outcomes on every project for our clients. Customer satisfaction, employee well-being and environmentally conscious practice are all at the core of our organisation and have allowed us to become leaders in this field.

We vouch to relentlessly uphold these values throughout all our practices.

This policy is reviewed on an annual basis to guarantee continued suitability and to ensure that the customers' requirements are at the forefront of every project.

Approved by:

Mr. Sameer Al Awam

Managing Director

OUR COMMITMENTS

Offer a reliable service which meets clients' expectations while adhering to both International Standard Requirements and legal and regulatory requirements of the State of Qatar.

Flexible approach in assisting clients in any unforeseen situations.

Provide our employees with the necessary resources to implement, maintain and continually improve the IMS.

Strive to minimise occupational risks in operations by always implementing an effective risk management system.

Have a key focus on always protecting the environment and preventing pollution while performing routine and non-routine activities.

Have an emphasis on implementing client(s) feedback to ensure ultimate customer satisfaction.

Improve the IMS by continually reviewing the status of its performance in every project carried out through TIMS.
